On behalf of the citizen of Hannibal, I their is companied by many citizes. The collowing and the companied with the panied of the citizen of Hannibal was panied by a decrease in the companied with the panied with th

"Freedom's battle once begun ; Requeathed from bleeding sire to son,

grown to a mighty tree whose mighty branches overshadow and protect millions of free and generous people. Its shoots when transplanted will vegetate in every soil and flower in every clime. You have seen, and almost tasted its delicious and invigorating fruit; take it and previous and invig to tyrants only. But in a combination of favorable circumstances, the bravery, integrity, and wisdom of our fathers, combined with the smiles ties. Our warmost sympathies are enlisted in ed; your holy cause, and we believe it our duty WHEREAS, an All-wise Providence has sudden- tail, but in the main is true. to your own dungary and to our brother Re-publicans of Europe: Brothers, be of good cheers the etermi God of justice and of right lives and rules." - We come not only to invite You to our homes, but to encourage and bid you "God's speed." If other republican governments have sometimes been ungrateful, we, as Americans, will not in the days of our prosperify forget our less fortunate brethren. Your cause is the cause of common huminity throughout the world and rests on the Resolved. That is a testimony of respect and na, and Princeton, and a frigate, a sloop-of-war, principles of right. And be assured whatever sorrow, the Lodge wear the usual badge of and a storeship. Besides their usual armament. fortune may betide you and your country, the mourning for the space of thirty days.

blessings of generations yet unborn will hait Resolved, That a committee of three be appliedes, and other offensive arms suitable for any

Governor Kossuth responded to the address in the following words: GENTLEMEN:

I regret to say that I shall be denied the By order of the Lolge. pleasure, at least for the present, of accepting the very kind invitation you have, in behalf of your citizens, so generously tendered me. Already the arrangements for my departure have been completed, and this evening we leave for New Orleans.

For the sympathics you have expressed for the cause for which I have expoused, and for the flattering manner you have chosen to speak of myself, accept of my thanks; and I hope sincerely that it may ultimately triumph and thus another glorious example of a free government be given to the world. You have spoken, sir, of the example of your country, and the influence Country. which it is to exert in the future destinies of governments; but glorious as that example is, it can, themen as delegates:

From Jefferson Township—Themas J. Crawford and of itself, do but little. The most glorious example in the universe of light of which we have cognizance, is the sun. He sheds his beams upon us, giving light, and with it life and animation to earthly objects. Through the transparent glass his rays penetrate interior of the walls which now surround us, though he exists many distant, the simple torch. millions of leagues distant, the simple torch, though a few yards off, flickers faintly, but illumines not. Though the sun in the morning again on the third Monday of April next.

J. M. WEST, Chairman. lumines not. Though the sun in the morning may illuminate the earth with effulgent splenmachinations of despots have succeeded in placing us in dangeons, where long and dreary darkness surround us,

sideration the project of building a Plank Road from Paris to Hamibal, the following proceedings were that ight from shining uson her people. We must remove these obstructions—we must first triumph over the despots who have crushed Hungary, and to do this we must have assistance, and when we get into a condition to dispose of our own efforts, we can and will then look to your example to enable us to establish ourselves in a firm and sure foundation; we will follow your wise counsels—we shall be proud to acknowledge your wisdom is the foundation of our Republic; but upon your example we of the solutions of building a Plank Road from Plank roads and urging upon the meeting the importance of taking the necessary steps to section.

Mr. Francis Keithley, near the Navy Yard, continue, to the annoyance and perplexity of the worthy family, and the astonishment of spectators and listeners. On Monday evening, the worthing and institutions are alled to the Chair, and James M. Bean elected Secretary. Messers J. C. Fox, John N. Parsons, and John W. McCan, being severally called upon, addressed the meeting, highly commending the contemplated enterprise, exhibiting facts and figures" showing the advantages resulting from Mr. Giddings of Olino, Hon. Mr. Stephens of Georgia, Prof. Page, and Wm. W. Ellis, Esq., Chief Engineer, of the Navy Yard. The rappings, or unearthly sounds, were distinctly heard, but I learn that no revelations or interpretations whatever have yet been given. Such is the character of the family that no one who knows them entertains any suspicion of collusion or deception on their part.

A correspondent of the Baltimore Sun, com

the precise object of the expedition declared .-Resolved, That the foregoing Preamble and It is understood, however that Commodore Resolutions be spread upon the records of the Perry will demand the liberation of a number Lodge, and that the city papers be requested to of American sailors, whom it is reported, the Japanese are exhibiting in cages, like wild beasts. He will also demand that American vessels shall be permitted to enter Japanese harbors, when in distress, or when obliged to make

Our whale fisheries, in the neighborhood of Whig Meeting.

An adjourned meeting of the Whigs of Monroe county was held at Paris, on Saturday the 13th of March 1852. In the absence of Thomas Barker, Chatman, J. West Esq., was called to the chair.

West Esq., was called to the chair. M. West, Esq, was called to the chair.

James M. Bean was called on to explain the object of the meeting, which he did in a brief many them. The whalers have to sail all the way to On motion, the following resolutions were adopted: the Sandwich Islands to make the necessary Resolved. That the meeting appoint two delegates repairs. Within the last year one hundred and from each township in the county to attend the State twenty-one of them were in the durbors of those twenty-one of them were in the harbors of those islands, at one time. They were thus put to an enormous expense, merely because the Japanese are determined to hold no intercourse with foreigners.

These are the Special complaints that have been uttered against the unsocial Islanders, and if they are true they are heavy enough. Our sailors, in their ardnous service, do not merely run the ordinary risks of shipwreek, but have the additional terror before their eyes of a vast Archipelago, the inhospitable shores of which it is death to touch, either intentionally, or when driven by the relentless fury of the elements.

McLEAN'S VOLCANIC OIL LINIMENT:

A Great Scientific Discovery, which presents to the Medical Faculty, Honor—To the of the Medical Faculty, Honor—To the proseneut.)

This Volcanic Cil, which is the hasis of the Liniment, is produced from the bowels of the earth; placed
there by All-Wise Providence as a great healing agent
for the use and benefit of mankind, and by them to be
annihed to the useful domestic animals placed under a
their charge, and which become liable to diseases an i
eccidents from their domestication. It is to be found
in various parts of the globe, wherever volcanic or
burning mountains have ceased to exist, but which may
than one whose qualifications consist only of a supereasily be known from the desolation and destruction. burning mountains have ceased to exist, but which may easily be known from the desolation and destruction which surround them. Along the base of the Sierra Nevada Mountains, near Salt Lake or Mormon City, it can be seen pouring forth from the clefts of those immense piles of rocks, shattered by volcanic eruptions.

Many persons who have traveled by land to California, may have observed an oily substance floating on the surface of springs. Pools and Lakes; while in other places, the water would appear clear, but upon stirring it, (the ground being statutated with this oil,) the surface became black in colour and greavy as for. Had the virtues of this Oil been known, many a hold pioneer would have been relieved from the argust of floating on the argust of the cert.

eer would have been relieved from the anguish of lacepeer would have been relieved from the anguish of lace-orted timbs and sprained joints, attendant upon crossing hose rugged and sacky mountains.

This Volcanie Oil, upon chemical analysis, is found to be composed of several powerful ingredients, one of which is naptha, well known to chemists and physi-cians as one of the chief corner stores of the great ite saving edifice which science is daily bringing to completion. This, when combined with some of the

Cancers, Old Sores, Bruises, or Rheuma-

tism.

At last the halm is discovered to give them ratief. To SADDLERY and hardware, an assortment for rate waters of Horses and other animals, I would assert that hat there is no disease requiring an external applica-ion, to which McLean's Volcanic Oil Linunent is sol

tion, to which McLean's Volcanic oil Liniments to tod applicable, and by using will surely remove. In discesses such as RINGBONE, SPAVIN, FISTULAS, SADDLE OR COLLAR GALLS, it enters into the circulation, loosing the contracted sinews, giving strength to the diseased parts, thereby enabling them to ject any corrupt matter that may have become secreted from various causes or accidents.

The Evidence Has Arrived.

The Evidence Has Arrived.

To J. H. McLean's Volcanic Oil Liniments

To J. H. McLean's Proprietor of McLean's Volcanic Oil Liniments—

Dean Sin.—The bottle of Volcanic Oil Liniments which I received from you, has performed a worderful time swelling was all gone, and I was entirely well, attending to my duffer as usual. I expected to have been confined for weeks, as it certainly was a severe pain. I take much pleasure in recommending to public notice that which I know to be an valuable Liniment.
